

## **AMENDMENTS TO THE SPECIFICATION**

Pursuant to 37 CFR 1.21(b)(1), MPEP § 714, please *replace* paragraph **0036** with the following:

Previously presented, unmarked version:

[0036] Thus, on the vases of these tests it was found that, with the laminated disc according to the invention, one can work almost twice as fast as with a conventional finishing disc. Further it turned out that the life of the laminated disc according to the invention is more than three times the life of a conventional finishing disc.

With changes marked:

[0036] Thus, on the [[vases]] basis of these tests it was found that, with the laminated disc according to the invention, one can work almost twice as fast as with a conventional finishing disc. Further it turned out that the life of the laminated disc according to the invention is more than three times the life of a conventional finishing disc.

Clean version:

[0036] Thus, on the basis of these tests it was found that, with the laminated disc according to the invention, one can work almost twice as fast as with a conventional finishing disc. Further it turned out that the life of the laminated disc according to the invention is more than three times the life of a conventional finishing disc.
